

***AUTOcaptain™ provides detailed scanning, shipment tracking and management for the automakers business and auto shipments.***

**EFFICIENT** > **AUTOcaptain™** produces: shipping documentation for autos delivered to the port, delivery receipts customer notifications and staging receipts to gate in the container. The system also offers auxiliary functions, such as yard locations, ad-hoc reporting functions, inspection data collection/management and receivables tracking.

**LATEST TECHNOLOGY** > **AUTOcaptain™** is a web-based application with scanner interface, and back-end processes, that facilitate the flow of information between carriers and the automakers.

**TRACKING** > **AUTOcaptain™** provides efficient cargo management and tracking at VIN level, process optimization, data collection with hand-held terminals, and supply chain integration via EDI communication.
